The sports coverage of the bookmaker is more than enough to please every type of sports fan, with every category of the sportsbook offering various betting markets. Members of Pinnacle will have a plethora of payment options to choose from, enabling them to make fast and safe deposits and withdrawals. Paysafecard is one of the methods available to patrons of the bookie, allowing them to make instant and extremely safe deposits via prepaid cards. Additionally, those who have created an account with Paysafecard will be able to use the service and withdraw their winnings in a quick and convenient way.

How

Does Paysafecard Function?

All that punters have to do is purchase a Paysafecard PIN code which can be bought from more than 600 000 retailers, located all over the world. When they want to top up their sportsbook balance, bettors will simply have to enter the 16-digit PIN they have purchased. In addition to utilizing vouchers, however, Paysafecard users will also have access to several other products.

Paysafecard

Vouchers

If you are not sure where you can buy a Paysafecard voucher, you can head to the official website of the company. There, you will have to choose your location from the search bar and the website will show you all the retailers that are near you. There are several denominations you can choose from, including prepaid cards of 10, 30, 50, 100, 150 and 250R\$/£/€ or other currency equivalents.

Since punters do not need to

expose their bank or card details when using Paysafecard, this payment method is considered extremely convenient and safe. While bettors do not need to open an account in order to utilize their Paysafecard PINs, they can enjoy many perks if they decide to create a Paysafecard account.

Prepaid cards by Paysafecard can be found at 46

countries around the world and the available denominations may vary according to the specific currencies used in different countries. Even if you do not spend the entire amount available on the prepaid card you have purchased, the excess will remain in your Paysafecard voucher and will be available for any payment in the future. It should be noted, however, that if you still have some funds remaining in the voucher after a period of 13 months, you will be charged a fee of R\$2 or its equivalent in other countries.

Even if you are not sure about your balance, you can easily check the

available funds on your Paysafecard on the official website of the service. All that

you will need is to enter the 16-digit PIN of your voucher. If you, however, have created an account, you will be able to easily keep track of your available funds. If you would like to combine your PINs, you can absolutely do that and deposit higher amounts at sportsbooks. This way you can also utilize any remaining balance to your old paysafecard vouchers and combine them with the new PINs you have purchased.

Mobile

App

In order to help its users to have constant access to their paysafe account, the service has also a dedicated mobile app. This way punters can easily find any retailers nearby or check their remaining balance even when they are on the go. If you are using the app, you can simply scan the QR code of your voucher and its value will be added to your paysafecard balance.

Utilizing the mobile app will also not jeopardize your safety, as the mobile app allows you to log in either by a fingerprint scan, a 2-step authentication or simply with a username and a password. The app is available for both iOS and Android users and it can be found at the respective app stores.

In order to use

the app, you will have to either open an account via the app or use your already existing one to log in. This will grant you instant access to your funds wherever you are. Thanks to your portable device, you will be able to track your transactions even on the go. You will also see the PINs you have uploaded to your account and your remaining balance.

paysafecard Mastercard

Since paysafecard is also offering a Mastercard prepaid card, punters can make use of this product and make fast deposits at any sportsbook that accepts payments via Mastercard-branded credit and debit cards. Requesting your paysafecard Mastercard is extremely easy and can be done by accessing your account.

After purchasing your Mastercard, it must be activated. It should be noted that the first annual fee for the card is deposited using your my paysafecard account. The paysafecard Mastercard is extremely useful for purchases online, including making deposits at interactive sportsbooks. In addition to that, it can be used for contactless payments. On top of that, considering the fact that it is a type of prepaid card, it allows users to make safe payments and still have control over their funds.

Just like any credit/debit card, paysafecard Mastercard can be used for withdrawals at ATMs. It also utilizes strict security measures to make sure that your money is protected and you can enjoy safe payments online and at various shops, restaurants and hotels. Unfortunately, paysafecard Mastercard is not available in every country that supports paysafecard.

Opening an Account

While punters can choose to simply buy paysafecard PINs and use them for the boost of their online betting balances, they can also opt for opening a paysafecard account. This will allow them to always be on top of their funds and they will not need to enter PINs when trying to pay via paysafecard.

Signing up is extremely easy and punters can choose to do it either through the website of paysafecard or through its mobile app. When you decide to open your account, you will be asked to provide information such as your name, physical address, phone number and email address. There is an age restriction for users who are eligible to open an account and it may differ according to the jurisdiction where they reside. After creating their paysafecard profile, new users will be asked to provide a copy of their ID which will verify their identity.

After they have created their paysafecard account, punters can add the 1 PINs they have purchased and this will top up their balance. Later on, they can easily make deposits by simply 1 entering their username and password, instead of entering the entire 16-digit PIN. You can easily combine PINs and whenever you 1 choose to make a deposit at a sportsbook of your choice, the sum will be transferred automatically from your oldest 1 PIN. This way you can be sure that your prepaid cards will not expire even if you are not directly 1 entering the PINs when depositing via paysafecard.

Signing up is completely free and it allows new users to make use of 1 the Standard paysafecard perks. If they wish to enjoy advanced options such as more frequent payments or higher limits, account 1 holders can upgrade and gain Unlimited status.

In addition to making payment easier by using your paysafecard account, you will also 1 automatically enjoy the perks of the loyalty programme that is available to account holders. Every time you resort to paysafecard 1 for your purchases online or deposits at sportsbooks, you earn points. You can, later on, redeem these points for various 1 rewards available at the my PLUS Shop.

You can even

recommend your friends to open an account at paysafecard. For each 1 friend of yours who opens a my paysafecard account and uses it for a payment, you will receive 25,000 PLUS 1 points that can be used at the my PLUS Shop and 25,000 Level points that bring more perks to paysafecard 1 users.

Depositing to Your Sportsbook Balance

If you have chosen to

top up your betting account via paysafecard, you will have no 1 issue doing so as it is a very easy process. When you head to the Cashier of the sportsbook where 1 you bet and select the option to deposit, you will see all the payment options you can utilize. You should 1 select paysafecard from the list of deposit solutions.

Choosing paysafecard as

your preferred payment method will redirect you to another window. 1 There, you will see a link which can show you all the retailers near you where you can buy paysafecard 1 vouchers. If you have already purchased your vouchers, you can move to the next step. You will see a section 1 where you should enter the 16-digit PIN you have bought. Since paysafecard PINs can be combined, you can also select 1 the option to add more pins which will allow you to deposit a bigger amount.

Once you have entered all the 1 PINs, you

should enter the sum you would like to deposit. After this, you are ready to confirm the transaction. 1 Deposits via paysafecard are instant which means that you will be ready to bet on your favorite sports right away.

Withdrawing 1 from Your Sportsbook

Balance

Unfortunately, paysafecard cannot be used as a withdrawal option. This is why punters will have to look 1 for an alternative method when they wish to request a cashout at the sportsbook of their choice.

Cost and Fees

While paysafecard 1 is a rather cost-friendly payment method, there are still some fees that punters should be aware of.

As it was said 1 earlier, if punters still have not used all the funds in their voucher within the period of 13 months, they 1 will be charged a maintenance fee of R\$2 or its currency equivalent. Depending on the country of residence of punters, the 1 aforementioned period may be longer than 13 months. If paysafecard users request a refund, they will have to pay a 1 fee of R\$7.50. If you happen to make your sportsbook

deposits in a currency different than the one of your paysafecard 1 voucher, you will also be charged a conversion fee. There is a currency converter on the official website of paysafecard 1 which allows punters to see what will be the fee they might be charged when making a deposit in various 1 currencies.
