Um desses números é o "+500" ou "-500" que você verá ao observar as cotações dos jogos. Neste artigo, vamos te ensinar a ler e a compreender esses números para que você possa fazer apostas esportivas informadas.

O que significa um "+500" ou "-500"?

+500:

isso significa que, ao fazer uma aposta de R\$100 nas chances de um time específico ganhar um campeonato, você receberá R\$500 se esse time ganhar. Isso também é conhecido como 5-to-1 odds.

Golden Ticket 2: Overview

Sequel season continues at Play'n GO as they release a follow up to their 2014 circus themed 5 slot Golden Ticket. The studio has stuck to the core spirit of the game while fine-tuning the looks, features and 5 potential. Actually, when you put it like that, there does seem to be quite a lot of changes. Let's take 5 a ringside seat to go over what's new in Golden Ticket 2.

Visually, there is a lot

linking the two games. 5 It's certainly not a complete disconnect like Jolly Roger 1 and 2 was. Playable from 20 p/c to R\$/€100 per spin, 5 players get the same 5x5 setup along with 20 fixed paylines located in a tent surrounded by clowns, ringmasters and 5 other characters of the big top. One minor cosmetic change is the action predominantly took place outside in the first, 5 this time we've moved under the canvas. The spirit remains the same though fortunately, which was one of the major 5 selling points of the original. Play'n GO absolutely nailed the look and feel of an old-time circus, nicely reviving it 5 for the sequel.

As you likely know by now, Play'n GO makes use of flexible RTP which means you can face 5 different RTP-settings depending on where you're playing. The default RTP, however, is set to 96.5%. The math model has 5 definitely been altered, so be prepared to go up against a totally different beast if you've played the original. That 5 one was a medium volatile slot whilst the sequel is as volatile as Play'n GO slots come.

In terms of the 5 actual gameplay, it works as follows: on each spin 25 symbols tumble into the grid. Wins are achieved by landing 5 3 or more matching symbols connecting either horizontally or vertically. Winning combinations are cleared from the grid after they have 5 been paid, and any remaining symbols drop to fill the gaps, potentially creating new wins. With each new drop, the 5 win multiplier is increased by

one, resetting to x1 on a new base game spin.

The paytable is full of circus icons

consisting of 5 low pay, 3 high pay symbols. The low pays include a monocycle, juggling items, a target, 5 knives, and a ringmaster's hat. Hit a line of 5 low pays for rewards of 2 to 4 times the 5 stake. The high pays are three characters from the show - a clown, a blindfolded knife thrower, and a ringmaster. 5 A 5 of a kind combo here rewards 10 times the stake no matter the symbol. Players also get a 5 consolation prize of up to 5x for lines of three or more mixed premiums landing horizontally or vertically.

Finally,

the golden 5 tent is the wild, substituting for any pay symbol to make a combination. It is also worth a fair amount 5 on its own with 5 in a row worth 50 times the stake. Wilds are created in the middle position 5 when a winning combination of three symbols is removed. If there are only wilds left on the grid, then they 5 are removed.

Golden Ticket

2: Features

Play'n GO has given the features a vigorous shakeup and now revolves around multiplier wilds, Win 5 Spins and free spins.

To the left of the grid is a 3 segment

meter that is filled when premium wins 5 occur. Wins consisting of 3, 4, or 5 symbols fill 1, 2, or 3 segments of the meter respectively. Completely 5 filling the meter triggers the multiplier wilds feature where 1 or 2 multiplier wilds are added randomly to the reels.

On 5 the right, one of the three characters is displayed, influencing which wild multiplier it will be. An active clown, knife 5 thrower, or ringmaster, awards the x1, x2, or x3 multiplier wilds respectively. The multiplier wilds feature can only trigger once 5 per game round; then the character changes for the next trigger.

Like the

original, lurking behind the symbols on the grid 5 is the word BONUS. Clearing the BONUS row triggers free spins which comes with three options. The less free spins, 5 the higher the multiplier and the volatility, so players choose their most suitable option:

5

highly volatile free spins with an 5 x3 multiplier wild.

7 medium volatile free spins

with an x2 multiplier wild.

9 low volatile free spins with an x1 multiplier

5 wild.

During free spins, filling 3 segments of the meter triggers a Win Spin using a 2x2 version of the multiplier 5 wild. A new grid of symbols appears, and the multiplier wild is randomly placed on the board. The win multiplier 5 is reset between free spins and Win Spins.

Filling 5 segments of the expanded meter on a Win Spin retriggers

another 5 one – keeping in mind the win multiplier is not reset between consecutive Win Spins. Finally, should you manage to 5 clear the full grid, a bonus prize of 500x the bet is awarded.

Golden Ticket 2: Verdict

Whether the sequel will appeal 5 to the same fans of

the first will be interesting to see. On the one hand, the two games look 5 quite

similar, both handling the circus theme in style, creating bags of big top atmosphere.

On the other hand, the 5 volatility and potential are much higher, which may suit a more dedicated attitude.

For some, the removal of the target shooting 5 bonus game will be a

blow. Not that it was highly lucrative, but it was fun, and worked perfectly with 5 the

theme. The new bonus games are a lot more sophisticated though, capable of producing

more intense moments and larger 5 payouts. Now, Golden Ticket 2 offers wins of up to 5,000 times the stake, or double the first.

All up, it's 5 a case of Golden Ticket looks

and base game meets Moon Princess with elements of Pimped (Win Spins) tossed in 5 for good measure. The result of this mash-up can be as enjoyable as a day out at the circus. That 5 is, one of those delightful disasters of a show which constantly threatens to slip from a state of barely controlled 5 chaos into total mayhem.
