conteúdo:

Survival Builder is an idle simulation game where you must survive on a deserted island by building everything from scratch. Start by a simple primitive bamboo and work your way up to the most impeccable house you can imagine. Recruit workers and assign different tasks from brick making, lumberjacking, to as advanced tasks as house building. You are in total control of managing the process to

I have been playing online poker at medium-high stakes for a long time, but despite playing over 200k hands, I haven't hit the jackpot once. I came across an article where the guy claims that you can hit a 1 in 500 shot in poker using T9s-56s. Is that true? According to my knowledge and what is stated on Wikipedia, it would be 0.0279%. The formula to calculate the jackpot value is: $\text{jackpot value} = \text{jackpot payout} \times \text{probability of hitting the jackpot in one hand}$. ?? that 0.15bb-0.20bb~~ to extra ev To calculate the expected value (EV) for All-in EV Fortune, multiply the winnings (1000bb) by the probability of hitting the jackpot (0.004%) and divide by the number of hands expected to trigger the activation (50). Then multiply this result by the activation chance (0.02%). $\text{EV} = (\text{winnings} \times \text{probability of hitting the jackpot}) / \text{number of hands} \times \text{activation chance}$ $\text{EV} = (1000\text{bb} \times 0.004\%) / 50 \times 0.02\% = 0.0008\text{bb}$ The expected value (EV) for All-in EV Fortune is 0.0008bb. Am I calculating it correctly, or is this approach incorrect? So far, I've been playing with a slight negative edge, around 0.05bb, and with population adjustments, I'm achieving a result of 6bb/100. However, over 200k hands, I haven't hit anything significant, and it's been tough. Can I add additional EV, for example, input it into a calculator and treat it as an additional ante for simplification? Or would that be incorrect, like misapplying mathematics if the EV is 0.20, inputting it as a 0.05bb from each player. Thank you for each answer.

La UE solicita información "sin precedentes" en investigación sobre vehículos eléctricos, según China

Fuente:

Xinhua

21.06.2024 08h37

La Unión Europea ha solicitado tipos, alcance y cantidad de información "sin precedentes" en su investigación antisubvenciones sobre vehículos eléctricos chinos, que exceden con mucho lo necesario para tal investigación, según el Ministerio de Comercio de China de este jueves.
