Samurai Hold'Em — SCORE SYSTEM GAMEE · Follow 2 min read · May 3, 2024 -- Listen

Share

Ready to do some maths?

Here you have all the info about this game!

Get your

skills ready!

How it works?

Players get points for creating combinations of 5 cards

from the cards on the table and in their hands (the four columns on the table).

Points

are scored for the type of hand + the rank of the highest-scoring card.

For example, a

Flush with 9-high would score — $700 + 50 = 750$ points for that hand.

Upon clearing all

the cards from all the hands, the remaining time contributes towards the time bonus.

The % of time left is the % of the player's score added to the base score at the end of the game.

Join the competition now!

Compete now on Arc8 to get the highest scores and

to get your wallets filled with GMEE from our prize pool of 50,000 tokens per game!
