6 Card Omaha poker is an exciting game derived from Omaha. Each player is dealt six private cards ('hole cards') which belong only to that player. Five community cards are dealt face-up on the 'board'.

[team pro pokerstars](#)

What is 6-Max Poker? Put simply, 6-max is a format that allows a maximum of six players to be seated at the table. Traditional 'full-ring' games, by contrast, allow up to 9 players.

The epazote herb is commonly used in the cuisines and traditional medicines of central and southern Mexico and Guatemala.

Epazote has a strong taste and aroma, so not everyone takes to it right away.

It can be somewhat of an acquired taste, but it adds a wonderful rustic layer of flavor to many dishes.

While it is best to use fresh epazote, the dried form can be used if no fresh herbs are available.

The peak season for the herb is in winter, but it is available year-round.

What Is Epazote?

Epazote (pronounced eh-pah-ZOH-teh) is an aromatic herb; both the fresh leaves and tender stems are used in cooking.

The epazote plant is a leafy annual or short-lived perennial plant that can reach 4 feet in height. Its dark green, long, slender, jagged leaves end in a point.

The flowers are green and very small; they produce thousands of tiny seeds.

As an herb, it is suitable for gluten-free, vegan, vegetarian, and paleo diets.

Origins

Native to Central America, epazote has been grown for culinary and medicinal purposes for countless generations.

This herb is used in everyday cooking in the southern Mexican state of Oaxaca and the Yucatan Peninsula among the Mayan-speaking peoples.

Epazote has spread as a weed (growing in empty lots and by roadsides) throughout a large part of North and South America and even into Europe and Asia.

The word epazote derives from Nahuatl, the language spoken by Mexican Aztecs and their ancestors.

A literal translation to English would be something like "stinky sweat" (not very appetizing!).

In some parts of Mexico and Guatemala, the plant is called pazote, ipasote, apazote, hierba hedionda ("stinky weed"), pazoli, and pizate, In Peru, it is known as paico, a word that comes from Quechua.

In English it is sometimes called goosefoot, skunk weed, wormseed, or Mexican tea; the last two of these terms allude to its medicinal use to combat intestinal parasites.

What Does It Taste Like?

Epazote has a somewhat pungent flavor profile and is described by many as "medicinal."

It has notes of oregano, anise, citrus, mint, and even tar or creosote.

The most flavor is provided by the fresh leaves and stems, and older leaves have a stronger flavor.

Dried epazote is available, but as with cilantro, the flavor is much reduced in the dried form.

The Spruce Eats / Julie Bang

Cooking With Epazote

The flavor compounds in epazote do not stand up to heating for a long time, so the herb is added to dishes near the end of cooking.

The tender leaves and stems are used, with fresh being preferred, but dried can be substituted.

One teaspoon of the dried herb is the equivalent of one fresh stem.

Aside from its function as a flavoring, epazote is also purported to reduce the gas and bloating experienced by many when eating beans and cruciferous vegetables.

Recipes With Epazote

Epazote is most frequently used to season frijoles de la olla (pot beans), especially when they are black beans.

It is also common in stews and rustic dishes made with mushrooms or corn.

A sprig of the herb is often used inside a quesadilla made with corn tortillas.

Where to Buy Epazote

Leaves and stems of this plant are used almost exclusively in its fresh form in its native land.

Bunches of it can be purchased in some Mexican grocery stores or farmers markets.

If you can't get it fresh, grow your own; it is an easy-to-grow and hearty annual.

Epazote seeds are available online if they aren't stocked at your local garden center.

If you are unable to get it fresh and can't grow it, then at least try to get some of the herbs in dried form.

You are most likely to find these at a Mexican grocery store or in the Hispanic foods section of a well-stocked supermarket.

The flavor of the dried form of this herb will be much less intense, but it will give you an authentic Mexican flavor profile that you can't get anywhere else.

Storage

Store fresh epazote either by placing the stems in a glass of water (like cut flowers), or wrap the leaves in a damp paper towel and place it into an unsealed plastic bag.

You can freeze leaves of epazote in an ice cube tray filled with water.

One frozen cube will give you the usual amount called for in most recipes.

No mundo do pôquer, existe uma gama variada de terminologias e expressões que podem ser um mistério para os jogadores iniciantes. Um deles é o termo "deuce", que faz referência à carta de valor mais baixo no baralho francês: o 2. Em alguns cassinos, o 2 pode também ser chamado de "Daus" em team pro pokerstars alemão, cujo significado se dá na face oposta do dado com dois pontos.

Mas por que o 2 é chamado de "deuce"? Podemos achar uma ligação histórica com jogos de dados donde a origem surgiu. No entanto, diferente do "ás", que pode ter um valor variado, o 2 a partir de agora representa apenas uma unidade.

Os

deuces (2s)

são dois: dois corações, dois espadas, dois ou quaisquer outros símbolos equivalentes podem ser obtidos e serão sempre a carta de menor valor no baralho.

Esfuerzos de las agencias de inteligencia de Israel para socavar y influir en el Tribunal Penal Internacional (TPI) podrían ascender a "infracciones contra la administración de justicia" e investigarse por el fiscal jefe, según han dicho expertos legales

En respuesta a las revelaciones sobre las operaciones de vigilancia e inteligencia israelíes contra el TPI, varios expertos legales destacados afirmaron que la conducta de los servicios de inteligencia israelíes podría ascender a infracciones penales.

Las divulgaciones sobre la campaña de nueve años de Israel contra el tribunal se publicaron el martes como parte de una investigación conjunta del Guardián, la publicación israelí-palestina +972 Magazine y la publicación en hebreo Local Call. Detalla cómo se desplegaron las agencias de inteligencia del país para supervisar, piratear, presionar, difamar y supuestamente amenazar a miembros del personal superior del TPI.

El fiscal del TPI busca órdenes de arresto por crímenes de guerra y crímenes contra la humanidad para líderes de Hamas e Israel

La decisión de buscar órdenes de arresto contra el primer ministro israelí, Benjamin Netanyahu, y el ministro de Defensa, Yoav Gallant, son las primeras acciones de un fiscal del TPI contra los líderes de un aliado occidental cercano.

Antes de las revelaciones del martes, el fiscal del TPI, Karim Khan, había afirmado que se habían producido intentos no especificados de "obstaculizar, intimidar o influir indebidamente en los funcionarios de este tribunal" por parte de partes no identificadas. Dicha conducta podría constituir una infracción penal en virtud del artículo 70 del estatuto fundacional del tribunal relativo a la administración de justicia.

Expertos instan a investigar las acusaciones de intentar socavar el curso de la justicia

Toby Cadman, un abogado británico especializado en derecho penal y humanitario internacional, afirmó que los hallazgos del Guardián son "profundamente preocupantes" e incluyen acusaciones que "constituyen un intento de perturbar el curso de la justicia a través del uso de amenazas" a la exfiscal del TPI Fatou Bensouda.

"Está claro que estos son asuntos que se encuentran dentro de la jurisdicción del TPI, en particular en virtud del artículo 70 del estatuto. Cualquier persona que haya intentado obstaculizar las investigaciones independientes del fiscal debe afrontar las consecuencias", afirmó Cadman.

Los observadores de larga data del TPI afirmaron que las acciones de Israel merecen una mayor

investigación. Matt Cannock, jefe del Centro de Justicia Internacional de Amnistía Internacional en La Haya, afirmó: "Es abundantemente claro que muchos de los ejemplos destacados en el informe constituirían infracciones del artículo 70. Dichos cargos deberían presentarse contra cualquier persona que haya intentado socavar, intimidar o sobornar a los funcionarios del TPI".
